Preliminary Amendment

## Amendments to the Abstract:

Please replace the previous Abstract with the following redlined Abstract:

The present invention relates to a press (10)-of pressure cell type, a tray (20, 60, 60a, 60b, 60e, 60d, 70, 74) for use in a press of pressure cell type and a method. The tray comprises a tray frame, which defines a space (26)-for arranging a forming tool and/or a work-piece. Prestressing means (24, 72, 76) are arranged on the external surface (22) of the tray frame and induce a compressing prestress which acts in planes parallel to the plane of the tray. The tray frame presents a curvature along its entire circumference.
